HE OFFICIAL REPORT OF THE MINNESOTA FOOD AND DAIRY COMMISSIONER SHOWS THE ROYAL BARING POWDER THE BEST IN THE

The last report of the Minnesota State details of the State Chemists' experiments and analysis to determine the strength and keeping qualities of the various powders. Samples of the numerous brands on sale in ders thus purchased and tested. Hence Grand display of Salem blankets at Kline's. Patronize home industry and buy of the list.

The report attaches great importance to a series of experiments made to ascertain the character, efficiency and keeping qualities of the powders. Baking powders that vary in strength, or that readily lose strength be fore use, are unreliable and will not give even results; besides, it is an indication of the court up to Thursday noon: the use in their compounding of improper ingredients. These tests were applied to a large number of samples of different ages of the three cream of tartar powders best known in Minnesota. They showed the strength or leavening power of the Royal very much greater than that of the others. The uniformity of strength of all the samples of Royal tested was remarkable. Its leavening power was practically unimpaired even in the oldest specimens. The difference in the amount of leavening gas in different samples of both the other brands was so great as to seriously impair their usefulness in baking. As much as 24 per cent loss was found in samples a few months old. All the samples of Royal examined by Dr. Drew were reported of satisfactory strength and quality.

CHIPS FROM CHITWOOD. EDITOR GAZETTE :

Your pleasant weekly visits, like a call from an old chum, contribute greatly toward making home pleasant, bringing in the news of the week from different parts of the country, all printed in large, clear type that we can read easily by lamp light, "without our specks on." The best news I can send you is that we are all well-not a sick one in the neighborhood, and all seem to be happy and contented. We have plenty

Nice, crisp cabbage, potatoes, roasting ears, green beans and lots of delicious, oldhioned pumpkin pies, and plenty of big red apples that we can eat in the dark without danger of masticating a worm.

Two more families have moved and lo cated in Chitwood.

We are sorry to say our old Friend Mr. Dawes has moved from here to Mill City. He is to take charge of the railroad section

there, on the O. P. road. We are informed that there are six more families coming in here in a few days. Let them come, there is plenty of room and to spare. There are yet good homesteads to be taken-that is, for families, none for old bachelors. We might find a few places for

nice-looking old maids and widows. Our district school is doing nicely. The children seem to be learning fast under the nstruction of Miss Dunham.

We have Sunday school every Sunday and the Seventh Day Adventists have a Sabbath school every Saturday, and we have preaching the fourth Sunday in each month by a U. B. minister from Philomath. We have been having considerable rain lately; the streams are high and the salmon

are plentiful, so look out for your dogs. J. E. Wilson, the Chitwood nurseryman seems to be very basy digging, packing and shipping off fruit trees. He has the finest we have seen in the state and are free from insect pests and moss. He finds big demand for them. Nov. 11, 1891.

arrest Ed Scott for disorderly conduct. He esisted and some animation ensued; but he was taken to the recorder and placed under bonds to appear the next day, at which time two warrants were served on him-one fer carrying concealed weapons and another for carrying concealed Weapons and another for resisting an officer—and he was placed under \$200 bonds to appear Monday and answer all charges against him. At the appointed time he plead guilty to the first charge, and in the excitement he walked out the door, mounted a horse and escaped. Now the question is, is the bondsman re-
